

JC-CTH11-08X-110C

Model No.	JC-CTH11-08X-110C	Design Features: 1. Perfect image quality, supports 10MP digital cameras 2. High contrast, low distortion, ultra-clear image 3. Full range of object-side telecentric fixed-magnification lenses, with multiple WD/magnifications/CCDs to choose from 4. Widely used in high-precision visual positioning and other applications	
Optical Structure	Object Telecentric		
Magnification	0.8X		
O/I	232.7mm		
Working Distance	110mm		
F No.	F7.5		
Telecentricity	< 0.1°		
Optical Distortion	< 0.05%		
Resolution	5.2μm		
Depth of Field	0.5mm		
NA	0.053		
Mount	C-Mount		
Measuring Range	Sensor Specification	Sensor Size	Object FOV
	2/3"	8.8mmx6.4mm	11mmx8mm
	1.1"	14.1mmx10.3mm	17.6mmx12.8mm

PRODUCT SIZE:(mm)
